

Health Resources

Hi CIP Families! We've recognized that amid COVID-19 pandemic, more barriers than usual were created for our families getting access to quality health care that gets medical forms and immunizations completed easily.

After receiving a sleuth of consistent questions and concerns, a team of us at CIP worked to provide a few resources with information we thought might be helpful..

[Help! I Can't Get to See Our Doctor. Where Can I Go?](#)

This dashboard provides easy access to many medical resources families may need to use on a frequent basis. There is a list of alternative clinical sites that you can visit to schedule primary care appointments to receive vaccinations, have diagnostic testing performed, as well as Medical Administration Forms completed, if necessary.

[Letter of Advocacy](#)

CIP has written helpful tips and information in this letter to you on how to advocate for you and your family's health. Understand your rights to accessing and transferring medical records, and your rights to refusal.

[COVID Testing Information and Additional Health Resources for Families](#)

We've compiled a list of additional health resources with information on COVID testing sites as well as the importance of immunizations for your reference.

Ms. Danielle Bouyer- CIP's School Nurse

Ms. Bouyer is our school nurse and is always willing and happy to assist our families. Her contact information and office hours are:

Email: dbouyer@coneyislandprep.org

Phone: (718) 676-1063 ext 208

Office Hours: Monday-Friday, 8AM-3PM
